SUMMARY

As an enthusiastic learner with a strong foundation in software development, I am currently immersed in pursuing a B.Tech degree with a focus on Web Development. My aim is to harness my academic insights and coding prowess to make impactful contributions within the vibrant realm of web technologies.

EDUCATION

B.Tech Data Science and Artificial Intelligence, Indian Institute of Information Technology, Dharwad	2021 - 2025
Rajarshi Shahu Junior Science College, Latur, Latur, Maharashtra	2019 - 2021
Shyamlal Memorial High School, Udgir, Udgir, Maharashtra	2013 - 2019

TECHNICAL SKILLS

Languages: C/C++, Python, Dart, SQL, LaTeX, Markdown

Front-end: React, JavaScript, HTML, CSS, Bootstrap, Typescript, Flutter Back-end: Node.js, Express.js, MongoDB, Firebase, Cloud Firestore, Postman

Database: MongoDB, MySQL, Firestore Firebase

Tools: AWS EC2, AWS S3, AWS Athena, Git/GitHub, Google Colab, VS Code, Android Studio

Communication: English, Hindi, Marathi

PROJECTS

Collaborative Coding Platform— GitHub link

July 2024 — Present

- · View Website
- Tech Stack: React, CSS, Node.js, Express.js, MongoDB, Socket.io, JWT
- Developed a comprehensive platform to facilitate real-time collaborative coding and project management.
- Implemented real-time collaboration features using Socket.io, enabling multiple users to work on code simultaneously and see changes in real time.
- Designed and built a project management system to organize tasks, track progress.
- Integrated a JavaScript playground within the browser, allowing users to write, run, and test code directly.
- Utilized JWT for secure authentication and authorization across the platform.

Pizza Ordering Website (UI) — GitHub link

May 2024 — June 2024

- View Website
- Tech Stack: React, Bootstrap, Bootstrap Icons, React Router DOM
- Developed a dynamic front-end interface for a pizza selling website using React.js.
- Utilized Bootstrap framework for rapid prototyping and responsive design, ensuring compatibility across various devices and screen sizes. The website is fully responsive, adapting seamlessly to different screen sizes and orientations.
- Implemented React Router DOM for efficient navigation between different pages, ensuring smooth user experience without full page reloads.
- Designed and implemented various components including the homepage, menu, cart, and checkout using React's component-based architecture.

Alumni Network App — GitHub link

Aug 2023 — Sept 2024

- Tech Stack: Flutter, Dart, Firebase, Cloud Firestore
- Developed a Flutter app featuring a streamlined homepage for intuitive post/news feed browsing.
- Implemented functionalities for users to effortlessly add posts.
- Incorporated a seamless chat feature, which facilitates communication with friends directly within the app.
- Designed an interactive profile page for users to personalize their experience and manage their account details efficiently.

LICENCES AND CERTIFICATIONS

Machine Learning Specialization, - DeepLearning.Al Postman API Fundamentals Student Expert, - Postman
